## INTRODUCTORY.

### POPULATION 103,025.

In presenting to our patrons and the public our annual visitor, the Portland City Directory for 1900-1901, we heartily congratulate the people of our proud city on the evidences of the growth and prosperity of Portland.

This is the thirty-eighth year in which the Directory of this city has regularly appeared, and the sixteenth issued by us.

### POPULATION.

We have this year 41,210 names in our alphabetical list. Multiplying by 2½, the number we have always used to allow for women and children, we estimate that **the population of Portland is 103,025.** It is true that this is more than the 1900 United States census, which gives Portland a population of 90,426. We expected this discrepancy and predicted it in our introductory last year, giving at that time the reasons for it. However, we emphatically stand by our estimate and believe it to be correct, for the following reasons:

First—The Portland Directory takes in all adjacent suburbs, such as St. Johns, Mount Tabor, Willsburg, Milwaukie and other additions, which, not being within the legal boundaries of the city, could not be counted as in Portland by the United States census, but are none the less people of Portland in all proper estimate of population.

Second—As the result of long years of experience, our method of taking names is more thorough than the census, which occurs only once in ten years, and must be pushed through hurriedly within a prescribed time. On the other hand, our men are trained year by year, and know how to hunt for people in unexpected locations, taking ample time to make their canvass thorough.

Third—Our compilers have been over the Portland names annually for ten years and more. With a keen scent for any possible "outs," they intuitively catch the omitted names while the canvass is on.

Fourth—We carefully check up by the directories of previous years, and send out special dispatches for missing names through the entire compiling.

Fifth—Our multiplier,  $2\frac{1}{2}$ , is conservatively low. Chicago has used  $4\frac{1}{2}$ , many cities use 3, and many more  $2\frac{3}{4}$ . We have always believed ours to be correct, and find it agrees with school census and other estimates.

Sixth—We have found that the vacant houses have been more rapidly filling up in the latter part of this year's Directory work. So that we actually have a greater population than in June, when the government census was taken. It may be added that the public schools, just opening for the fall term, show a very large increase of pupils over any previous year.

So it is absolutely safe to insist upon it that Portland has a population of over 100,000.

#### MATERIAL GROWTH.

Along with the growth of the city in people comes the resultant increase in business and material wealth. All manufacturing, commercial and trade activities feel the pulsation of healthful life-blood. Ships are bearing to all parts of the world the products of our state, and our commerce, especially with the Asiatic continent and islands, is on the rapid increase. In the city new business enterprises are opening up, while long-established houses are erecting substantial edifices to provide for their largely augmented trade. The street-car system, already the best of any city in the country, is pushing out into growing suburbs, and new residences are going up everywhere, giving the aspect of most prosperous times.

#### MANUFACTURING.

Among the evidences of the advantage of Portland as a manufacturing center is the fact that prominent enterprises in other locations are moving here. It is in point to mention the Doernbecher Manufacturing Company, established at East Twenty-eighth street, at the O. R. & N. Railroad crossing. This is a large furniture factory, with substantial buildings and all the best approved modern appliances for the production of most excellent goods from our own ample forests. The whole system was erected during the past year, and will turn out \$250,000 worth of furniture in this its initial year. It now employs over 250 men, adding that many to the much-desired "dinner-pail brigade" of the city. Mr. F. S. Doernbecher is entitled to the gratitude of the city for the admirable carrying out of his pledges in response to the subsidy made up by enterprising citizens to induce him to remove his works here and to greatly enlarge his plant.

#### A SMALLER VOLUME, BUT LARGER BOOK.

It will be observed that we have made a decided improvement in this book. Our binders complained that the paper we have been using rendered their work difficult to execute satisfactorily. There were reasons for the complaint that the book was poorly bound last year. At greatly augmented expense we have put in a much better paper this year. It is actually heavier in weight, but being much closer calendered, makes a thinner book. But it need not be supposed that there is diminution in size. The fact is, this book actually contains forty-eight pages more than last year, and is the largest book in point of names and pages of any City Directory ever published in Portland. This has already been shown in our statement of population. The improvement makes a very neat, handy volume for one so much used as this.

With thanks for the help and patronage of our friends, we propose hereafter, as heretofore, to publish annually the Portland City Directory with such improvements as circumstances may suggest.

Portland, Oregon, Sept. 22, 1900.

# R. L. POLK & CO'S STREET AND AVENUE GUIDE.

1900.

## EXPLANATIONS.

Names of streets and avenues (except the numerical streets) are in alphabetical order.

Numerical streets, such as 1st, 2d, etc., are at the end of alphabetical list, in numerical order. East 1st, East 2d, etc., follow "East" in alphabetical list in numerical order.

The subjoined names of intersecting streets, with the numbers that occur at each intersection, follow in the order in which they cross. If, for instance, you wish to find 411 Alder street, by reference to this Guide you will see that Alder intersects with Tenth at 396, and Eleventh at 415. The place you seek is between those streets.

To save repetition of names and numbers of intersecting streets, where they are the same, we give full list to only one of such streets. For instance: Front, 1st, 2d, 3d and 4th streets are exactly alike as to numbers. We give full list of street crossings and numbers to Front, and refer the others to it.

Where even numbers appear it shows that the street enters only on the even side and does not cross. Two numbers are inserted where there is a break in the line—streets entering each way not being opposite—thus making odd and even numbers out of the usual order.

By city ordinance there is a number for every 25 feet front. This makes 20 numbers to an ordinary block—2 numbers on each side being allowed for the street.

The numbers on the west and north sides of the streets are odd, and on the opposite sides are even. The initial points are at Ankeny st., the Couch line, and Washington st. The east and west initial points are at the Willamette river and Patton Avenue.

The distinction as to numbers north of Ankeny line is made by adding the word "North."

To aid in locating streets we have divided the city as follows, indicating location by abbreviations in parenthesis after each street name:

WEST SIDE. (N. W.) All north of Ankeny. (W.) Between Ankeny and Lincoln. (S. W.) South of Lincoln.

EAST SIDE. (N.) All north of Fremont. (N. E.) From Fremont to E. Ankeny. (E.) Between E. Ankeny and E. Lincoln. (S. E.) From E. Lincoln south.

Carrier Division—Henry M. Barrett, Supt. of Carriers.

**CARRIER LIMIT.**

Letters addressed to parties outside of the carrier distribution are not taken out by carriers, nor even sent to the stations, but are invariably retained in the general delivery of the main postoffice. So that it is of the utmost importance that the outside boundaries of the carrier limits should be understood.

**THE WEST SIDE** distribution can easily be described in general terms, as within the following limits, viz.: From York street on the north to Seymour avenue on the south, and from the river west to and including Willamette Heights, City Park and Portland Heights, and not including Seventh Street Terraces and Marquam Hill.

**THE EAST SIDE** limits are so irregular as to be describable only by a boundary line, as follows: Beginning at the Willamette river in Albina at, and including, the U. P. Terminal Grounds, thence north along Maryland Av to Prescott St, thence east along Prescott to Congress St, thence north along Congress to Golng St, thence east to Williams Av, thence north to Flor-

ence St, thence west along Florence to Union Av, thence south along Union Av to Falling St, thence east to E 9th St, thence south to Fremont St, thence west to E 7th St, thence south along E 7th to Thompson St, thence east along Thompson to E 24th St, thence south to E Washington St, thence east to E 26th St, thence north to E Ankeny St, thence east to E 28th St, thence south to E Stark St, thence east to E 41st St, or the city boundary. Then south along said boundary to Hawthorne Av, thence west to Marguerite Av. After taking in that avenue to No. 385, the line continues west along Hawthorne Av to E 14th, thence south to Division St, thence east to E 24th St, thence south along E 24th to Bismarck St, thence west to the river, thence north along the river to place of beginnng at Albina.

##### STATION A.

106 Union Av—Kirk Sheldon, Supt. The distribution of this station covers what was formerly East Portland, and is comprised in the territory from Hancock (between Larabee and E 7th streets) and Thompson (between E 7th and E 24th streets) to Bismarck on the south, and from the river to E 24th St, except that E 20th forms the boundary line between Stark St and Hawthorne Av.

##### STATION B.

230 Russell—John H. Steffen, Supt. Comprises all of Albina and the carrier territory north of McMillen and Welder Sts to Grand Av.

##### STATION C.

990 Belmont—E. C. Minor, Supt. Sunnyslde, or between E Stark St and Hawthorne Av and E 20th and E 41st Sts.

## THIS IS A FRATERNAL BENEFICIARY SOCIETY

Founded upon wise, economic and patriotic principles. We have a beautiful ritual, unique in form, lofty in moral teachings, founded upon the life and character of the immortal Father of our Country.

**OBJECTS:** { To Help Disabled Members.  
To Care for Widows and Orphans.  
To Lay Up a Competency for Future Years.  
To Inculcate the Principles of Family Protection.  
To Establish a Broad Brotherhood by the People for the People.

This is something that will bear investigation. You do not have to "die to win." The plan is founded on years of experience, and is the result of careful study by the brightest insurance men.

Membership for men and women. Payments, certain fixed amounts equitably graded according to age.

## BEHNKE'S PERNIN SHORTHAND and Commercial College,

613-614 Commercial Block.

Day and Night School. *Individual Instruction.* In session all the year. *Pernin Shorthand* was awarded World's Fair Medal and Diploma. Most popular, because the simplest, most legible and rapid. No Shading: No Positions; No Failures; Few Word-signs. Our students accomplish as much in three months as those with the Pitman, Graham or Munson in six to nine. Speed for practical work, 6 to 12 weeks. Success guaranteed. We teach the latest and most practicable method of Bookkeeping, by actual practice in current business transactions.

# Nervous Sanitarium

PORLAND,

OREGON

This institution at an elevation of 400 feet above the city proper and in Portland's most desirable suburb, is above ordinary fog level and out of the city's dust and noise.

Twenty acres in the tracts upon the North slope of Mt. Tabor (Tabor Heights).

This institution is not a hospital neither is it a general sanitarium. It occupies in this region a field by itself—a very limited one—that for nervous diseases alone.

Contagious diseases, consumptives and the insane not received.

to have you believe what some persons say. Many people are irresponsible, or indifferent as to their utterances, many others are merely malicious.

When people get hurt they are quite likely to howl. Possibly you have heard some of our competitors "run us down;"—some of them cannot say loud or mean enough things about us. *The application is apparent.*

But there is another side, and we would respectfully refer you to our customers, and request you to note what they have to say. Following are a few samples:

"The printing furnished us by Mr. Hawk has always been to our satisfaction in every way." WOLFF & ZWICKER IRON WORKS.

"We have been well pleased with the printed matter furnished us by Mr. Hawk. He has been prompt and prices have been reasonable." WOODARD, CLARKE & CO.

"We have been well pleased with the printing furnished us by Alvin S. Hawk. His prices are very reasonable." STANDARD OIL CO.

"The printing Mr. Hawk has been doing for us the past few years has been to our entire satisfaction. He has been reasonable in charges, prompt in getting out our work, and it has been strictly first-class." RUSSELL & CO.

"Mr. Hawk has always furnished us first-class printing promptly, and at very reasonable prices." THE HAMMOND PACKING CO.

We are in no combine, and having lately added to our equipment are prepared to uphold our reputation for

# SANITARIUM FOODS

MADE FOR THOSE WHO WOULD  
BE WELL AND KEEP WELL.

## SCIENTIFICALLY PREPARED FOODS.

The products made by the Sanitarium Food Co.  
are manufactured under the supervision of food experts.

These foods are the result of over a quarter of a century of patient experiments, and have proved, by years of use at the sanitariums and other large medical institutions, to be the most needed by the human system.

They are not alone invalid foods, but are composed of the cereals that nature intended man to use for his sustenance, and are suitable alike to the healthy and strong as well as the invalid and babe.

## NEW ST. VINCENT'S HOSPITAL

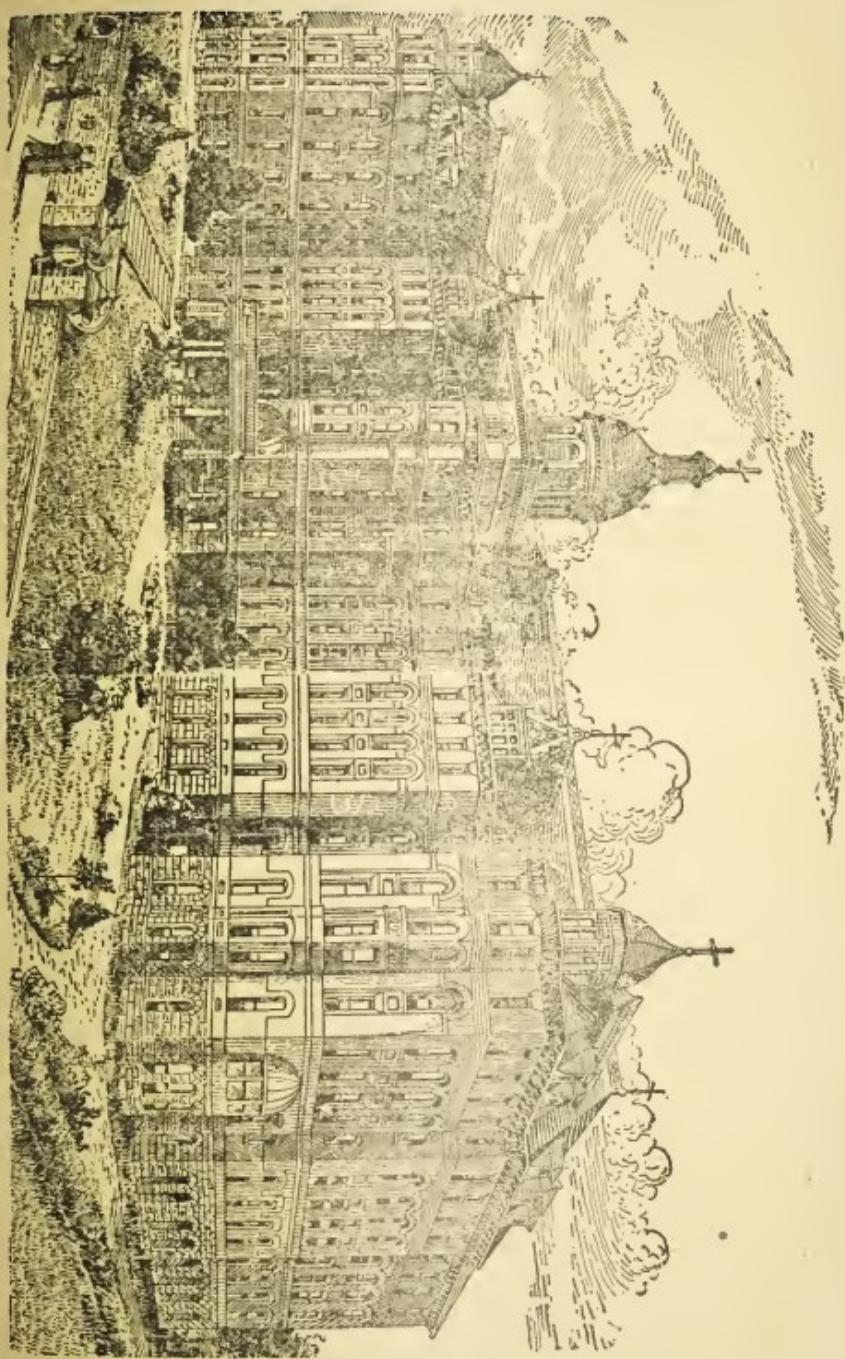

CORNELL STREET, AT HEAD OF HOYT.

**A**CKNOWLEDGED the finest and best appointed Sanitarium on the Pacific Coast.  
Delightfully situated on the Heights, just West of the City, 220 feet above the  
base of city grades, and so beyond the malarial atmosphere, and affording inmates a  
superb panorama of Portland for miles.

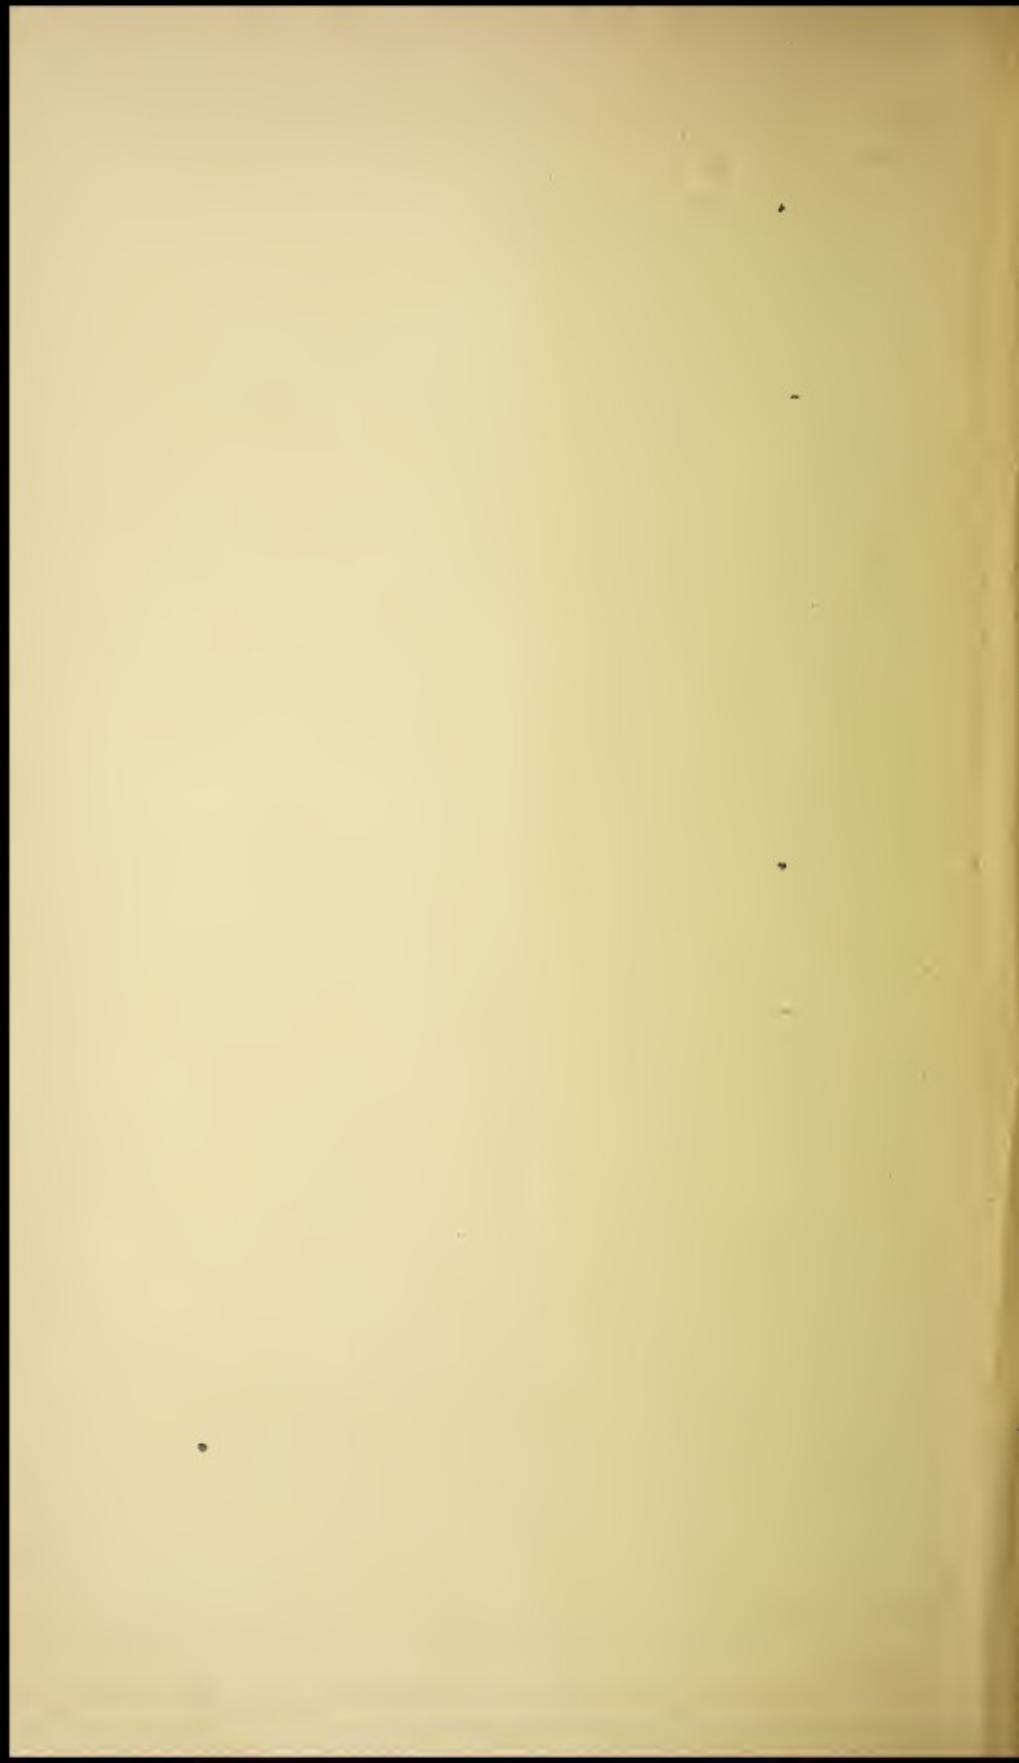

New St. Vincent's easily cares for 300 patients under the management of the  
Sisters of Charity of Providence, forty in number, assisted by a training school for nurses.

Its staff is composed of the most eminent physicians and surgeons in the state,  
namely: Drs. H. E. Jones, Wm. Jones, K. A. J. Mackenzie, J. F. Bell, A. C. Smith, E.  
F. Tucker, D. H. Rand, J. D. Fenton, H. Lane, O. S. Binswanger, A. W. Moore, R. L.  
Gillespie, E. Linden, J. F. Dickson, specialist eye, ear, nose and throat; D. Moore,  
Marine Hospital Surgeon; Resident House Surgeons, J. E. Saylor, S. C. Siocum, J. D.  
Scanlon.

# ITLE GUARANTEE AND TRUST COMPANY, PORT- LAND, OREGON

CHAMBER OF COMMERCE

WM. M. LADD, President

J. THORBURN ROSS, Vice-President and Manager

T. T. BURKHART, Secretary

LOANS negotiated upon improved Portland property, at lowest rates of interest.

REAL ESTATE—We have superior facilities for buying, selling and appraising the value of real estate in Portland and vicinity.

RENTS, TAXES, ETC.—We take full charge of property for clients, collect rents, attend to the payment of taxes, and the general care of their property.

SAFE DEPOSIT VAULTS—The Title Guarantee and Trust Company own the safe deposit vaults in the Chamber of Commerce, corner of Third and Stark Streets. We Rent boxes at from six dollars per year up, according to size and location. The utmost secrecy is maintained in regard to names of renters, and all matters connected therewith. Our vaults are fire and burglar proof, and furnish entire protection at all times. For a few dollars a year you can be made to feel secure and easy in your mind regarding your valuables. Private rooms for clients, where boxes can be taken and contents examined. If you contemplate leaving town for a season, rent a safe, and deposit therein your jewelry, keepsakes, deeds, mortgages and other valuables.

WE EXECUTE TRUSTS of all descriptions, particularly those relating to real property. We shall be glad to promptly reply to correspondents seeking information as to investments in Oregon at large, or in the city of Portland in particular.

## ABSTRACTS AND TITLE INSURANCE

The Title Guarantee and Trust Company makes Abstracts of Titles and Guarantees Titles to Real Estate.

### QUESTIONS AND ANSWERS OF IMPORTANCE TO THE OWNER OF A HOME, PURCHASER OF A LOT, OWNER OF A MORTGAGE.

Question. What does title insurance mean?

Answer. Lawsuits and losses are liable to arise in any title, from undiscovered defects, incumbrances, mistakes or fraud, or from defects which are considered of no importance. A title insurance company issues policies which protect owners, purchasers and mortgagees against loss from such dangers.

Q. I have an abstract. Isn't that enough?

A. Certainly not. It is most absurd for anyone to think that an abstract gives him a title. You may have a perfect abstract on a title absolutely worthless to you. The searcher only professes to refer you to the papers recorded at the court house which affect your title, and does not pretend to say whether those papers show your title to be good or bad.

Q. If my attorney says the title is good, am I not certain?

A. You are not. Among the thousands of instruments of record at the court house, one that is vital to your title may be missed by the searcher and your attorney gives his "opinion" upon the title only so far as the abstract shows it.

Q. If my title is perfect on the records, can it be defective?

A. Yes; it might still be wholly void as to you.

Q. How can that be?

A. One of the deeds may have been forged, making it void. A deed may have been made by an attorney in fact whose power was fabricated, making the deed void. A deed executed under a power of attorney after the death of the principal, is void. A deed or power of

attorney executed by an insane person, is void. A deed may be made by a person of the same name as the owner, but having no interest in the land, and it would be void. The whole title may depend upon a foreclosure sale in which all the necessary parties have not been joined in the suit, and their rights consequently not cut off. This has often occurred in Portland. Many of our citizens imagine that a foreclosure sale, or sheriff's sale is equivalent to a guaranty that everything pertaining to it is regular and right. Nothing can be further from the truth. Many other equally hazardous things that the records do not disclose, many exist in titles anywhere.

Q. How does a title insurance company discover defects not shown by the records?

A. The Title Guarantee and Trust Company has collected, and is daily collecting a large fund of information outside of the records, and thus has extraordinary facilities for examining titles, independent of its superior plant.

Q. What does the company do when a title it has insured proves to be defective?

A. Pays the loss — a loss which would otherwise fall upon the owner.

Q. Would the company decline the insurance if, after examination, it found serious defects in the title?

A. Most certainly. But if the defects are of such a nature that they can be cured, the company will undertake to have the title perfected and then issue its policy.

Q. How long does the title policy remain in force?

A. An "Owner's Policy" runs for all time — a perpetual policy — and premium paid but once. A "Mortgage Policy" runs only during the life of the loan. The Mortgagor's Policy expires when the mortgage is satisfied, with the exception that it becomes an owner's insurance if the fee simple is acquired by the mortgagor under foreclosure.

Q. Are premiums payable annually?

A. There are no annual or term premiums. One fee pays for the whole time.

Q. What further charges are made for preparing an abstract of title, examination by counsel, etc.?

A. None whatever.

Q. If I sell do I then lose my insurance, just as with a fire policy?

A. No, that is a very common mistake. If you keep your policy it insures your warranty as fully as it insured your fee-simple before sale.

Q. If my title is insured and is then attacked, how can I establish my claim under the policy?

A. Simply hand the summons to the Title Guarantee and Trust Company, and it defends the title at its own cost, and pays the loss if the defense is unsuccessful — you being an "interested spectator."

Q. Can a title insurance policy be used in obtaining a loan?

A. Certainly. Instead of furnishing the mortgagee with an abstract brought down to date and paying his attorney to examine it, you can take a policy running to him directly, or you can assign to him your owner's policy. The title policy is the quickest, safest and most convenient of all expedients for settling the question of title of mortgagees, owners and purchasers. An exhaustive examination, based upon a superb plant, with a guarantee of free defense and payment of loss, backed by an incorporation of ample capital, is obviously to be preferred to a simple opinion upon a title without guaranty or liability.

This company offers:

- |   |                   |
|---|-------------------|
| 1st. Thorough examination.  | 3rd. Low charges. |
| 2d. Absolute guarantee.   | 4th. Saves time.  |
| 5th. Great care and cheapness of all subsequent transfers or mortgages. |                   |

Title insurance facilitates the transfer of real estate. Merely technical defects that are not of vital importance, and yet so often block sales, can be insured against.

It saves expense to the mortgagor. When the holder of a Title Insurance Policy mortgages his property, he transfers his policy to secure the mortgage, and gets his money the same day.

## DOES OUR PERPETUAL LEDGER SAVE YOU MUCH TIME?

- 3427** Bookkeepers who have used our books more than one year were asked this question.  
**3396** of them replied in the affirmative.

Leaves are held in a vise-like grip when Binder is closed

THE PERPETUAL LEDGER

# **ADVANTAGES OF OUR SYSTEM**

## **PERPETUAL**

Dispenses with the annual transfer of ledgers. Once opened no further extra labor of the bookkeeper is required.

## **ALL ITEMS OF AN ACCOUNT**

Are kept together, no matter what length of time the account covers or how active it may be.

## **LIVE ACCOUNTS ONLY**

Are retained in the Current Ledger. All filled leaves and closed accounts are filed in Transfer Ledger.

## **QUICK REFERENCE**

The index being distributed through the book admits of locating the accounts much more rapidly. No separate index necessary.

## **SAVES TIME POSTING AND BALANCING**

As only open accounts are dealt with, and these are all properly arranged and their position is always the same.

## **ARRANGEMENT OF ACCOUNTS**

Can be had as to locality, by states or salesman's territory, in alphabetical order, or as to time of opening, or activity.

## **NO SPACING NECESSARY**

Each account is given a separate leaf. Active accounts can therefore have unlimited space.

## **LESS LIABILITY FOR ERROR**

Accounts are more surely located and with one account on each leaf the proper space is readily found.

## **EXPANSIVE**

It admits of insertion of new accounts from time to time in proper place without disturbing any other.

## **EASILY HANDLED**

As both sides of the leaf are used for each account, a much smaller sized book can be used.

## **FACILITY**

One or a dozen persons can work on the books at one time in taking off statements or posting or balancing.

## **CONVENIENCE**

Of having a customer's account all together, saving time of bookkeeper looking through a lot of old ledgers.

## **SIMPLICITY**

A trial balance is more readily taken off Tabulation or abstract is simplified and systematized.

## **ADAPTABLE**

Any business of any size, or any sudden change in activity, as well as any arrangement necessary, can be accommodated.

## **ECONOMY**

In every case it costs far less in the long run—less in material—less in time—less in labor.

**Over 5,000 Bookkeepers now Using our Ledgers, Testify to these Points of Superiority.**

# SPECIAL LOOSE LEAF SYSTEMS

## FOR THE PURCHASING DEPARTMENT.

Requisition Order Systems in Manifold, Quotation Record, Cost Book, Purchase Record, Stock Report, Perpetual Invoice Filing System

By the use of a number of these systems in combination, we not only accomplish what you now secure with your present methods, but in addition we give you an absolute check and instant reference as to goods ordered, en route and received; instant and accurate information as to the amounts owing; absolute certainty that accounts are correct, as you work with the O. K'd invoice itself and not with figures three or four times transferred from the original invoices; the assembling of all invoices for any one firm in one place; an absolutely flexible system that will work just as well with 50 as 5,000 accounts, which will save 25 to 50 per cent of the amount of work done at present.

## FOR THE SALES DEPARTMENT.

Order Blank System, Binders, Holders and Blanks; Manifold Order Books and Blocks

We can create an Order System suitable to any business, whereby the original order can be used for filling, shipping, billing and charging the order and thereby eliminate all journalizing of sales Billing and Charging System

Adapted to most any business—an invoice and journal entry being made at one writing. Can be used either for typewriter or hand writing; produces an exact copy of every invoice. Salesmen's Price Books, Route and Expense Reports, Advertising Information Reports

## FOR THE SHIPPING DEPARTMENT.

Safety Manifold Shipping and City Delivery Receipts and Books

By the use of which errors in shipment are prevented and all possibility of loss through mis-carriage eliminated.

Merchandise Envelopes

For the mailing of merchandise, samples, etc., at 3rd and 4th rates of postage.

## FOR THE ACCOUNTING DEPARTMENT.

In this department we offer the greatest labor saving systems known to accountants. We can create for any mercantile or manufacturing business a complete system on the loose leaf plan, whereby a daily statement of the condition of the business can be procured as soon as the day's posting is done, making a monthly trial balance unnecessary.

Perpetual Ledgers—General, Sales and Creditors'

Perpetual Trial Balance and Proof Books, Journal, Cash and other Auxiliary Books

On the loose leaf plan facilitate, to a great degree, the work of the accountant. We also furnish Bills Payable and Receivable Forms, Voucher Systems, Check Registers, Pocket Ledgers and Collection Reports.

Monthly Statement System

Especially adapted to a credit business where an itemized statement is issued. By this system we save all itemizing in the ledger. It has many other commendable features.

Inventory System

By which any number of clerks can work upon an inventory at one time without the necessity of re-writing. We also manufacture a complete line of high grade

Ruled Sales and Letter Impression Books

## FOR THE MANUFACTURING DEPARTMENT.

We devise Special Factory Order Systems, Cost, Material and Labor Records, Time and Pay Roll Records, etc.

Factory cost accounting is one of our specialties and we can provide a system by which an accurate account can be kept of all material, labor and expense, showing actual cost of each article produced.

## FOR BANKS.

Loose Leaf Systems have become generally recognized as especially suitable for Commercial and Savings Banks and have been universally adopted for

General, Individual and Liability Ledgers, Journals, Receiving Tellers' Reports, Clearing House Reports, Discount Registers and Ticklers, Check and Draft Registers, Collection Registers and Ticklers, Minute and Signature Books

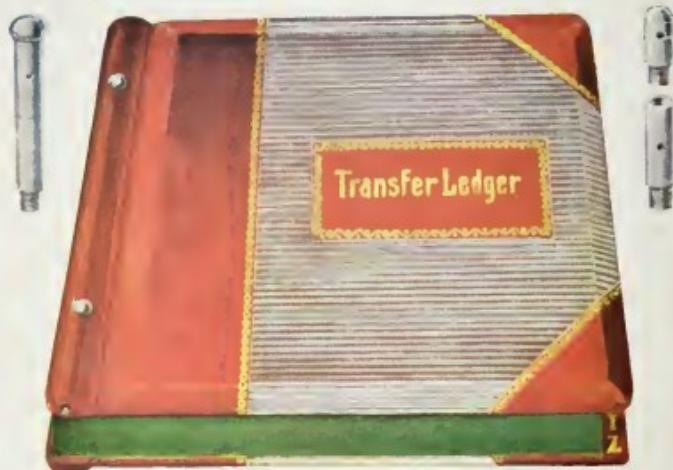

Our Silicate Daily Balance Book offers many advantages over any other system of daily balancing. We have also devised many useful manifold forms for the Collection Department, saving time and labor.

If you want the most modern, up-to-date methods of accounting, let us systemize your business.

# OUR SECTIONAL POST LOCK BINDER

Holds securely one sheet or one thousand.  
Has no long and unsightly posts projecting  
to catch on everything and be in the way.  
Can be opened and expanded to receive  
leaves without removing the cover.  
It is equipped with one one-half and six  
one-inch sections for each post.  
It is particularly adapted for filing records of  
any kind that require indefinite expansion.

PATENTED MARCH 17, 1892. DECEMBER 10, 1898.

Securely Locked by mechanism in Top Cover.

**CRATER LAKE.** This remarkable manifestation of nature's marvelous processes is situated on the summit of the Cascade Range in Southern Oregon, 65 miles north of the California boundary. It is elliptical in form,  $6\frac{1}{4}$  miles long by  $4\frac{1}{2}$  miles wide. Its surface is 6,239 feet above sea level, and the rim varies from 520 to 1,989 feet in height. The color of the water is a deep blue, remarkably clear and transparent. Within the lake is an island 845 feet high, in the center of which is another crater 475 feet in diameter and 80 feet deep, where snow drifts lie all summer long. The picture in the circle is of a pinnacled rock in the lake 100 feet high, which because it appears and disappears according as it is in sunlight or shadow, is called the Phantom Ship.
